

# **DATATRON**

## **DATAMETER 4 - AREAMONITOR**

- SPEED
- AREA RATE
- AREA TOTAL
- DISTANCE
- TIME WORKED
- BACK LIGHT DISPLAY
- AREA SUBTOTAL
- PERMANENT MEMORY

A Slimline DATAMETER 4 AREAMONITOR is just the right size to mount in a cab as the monitor is only 35mm deep. The front panel has a large Alpha Numeric Liquid Crystal Display for easy read out. The sealed control panel has tactile function keys behind an easy to read panel.

The AREAMONITOR is ideal in a variety of applications when you need to check chemical and fertiliser Application Rates. Set and maintain correct ground speed when harvesting, spraying, seeding or mowing.

The AREAMONITOR is accurate and easy to use. The setting of the wheel circumference and implement width is done by just two push buttons.

The AREAMONITOR Kit Includes the electronic monitor, wiring harness and installation hardware. A magnetic wheel sensor with a mounting bracket.
