

# DATATRON GRAIN LOSS MONITOR

## TYPE GM9200

Designed and manufactured in Australia for universal fitting to most machines, it enables the operator to accurately assess grain loss at all times.

When calibrated and used correctly, significant reduction in harvesting time with minimum grain losses can be achieved, resulting in savings which will repay the cost of your monitor in the first season.

- IDEAL REPLACEMENT FOR OLD MONITORS
- COMPACT DESIGN
- AUSTRALIAN MADE
- SUPPLIED IN KIT FORM
- EASILY FITTED TO MOST HEADERS
